

1. Organisation Overview

Name: STITCHED BY B

Background:

STITCHED BY B is an emerging handmade crocheting business that specialises in crafting high-quality beanies and scrunchies. The business focuses on producing stylish, warm, and unique products that reflect creativity and craftsmanship. The business already has a website, which provides an online presence, but there is an opportunity to improve and enhance it to better serve customers and support business growth.

Mission Statement:

To design and produce high-quality handmade stitched products that provide warmth, comfort, and style while maintaining uniqueness and craftsmanship.

Vision Statement:

To become a leading handmade fashion brand recognised for creativity, quality, and customer satisfaction both locally and globally.

Target Audience:

- Young adults and teenagers
- Fashion-forward individuals
- Customers seeking winter accessories
- Supporters of handmade products

2. Website Goals and Objectives

Goals:

- Improve the existing website
- Increase brand visibility

- Enable efficient online sales
- Enhance customer engagement and experience

Key Performance Indicators (KPIs):

- Increase in website traffic
 - Number of completed purchases
 - Conversion rate (visitors to buyers)
 - Customer engagement through product views and clicks
-

3. Current Website Analysis

STITCHED BY B currently doesn't have an existing website that showcases its handmade stitched products, including beanies and scrunchies . The website would help serves as a digital platform where customers can view products and learn more about the brand.

Strengths:

- Provides an online presence for the business
- Allows customers to view products anytime
- Displays the brand in a professional way
- Supports product visibility

Weaknesses:

- Limited e-commerce functionality
- Basic layout and design
- Navigation may not be fully user-friendly
- Limited product categorisation
- May lack secure checkout features

Opportunities for Improvement:

- Upgrade the design to be more modern and attractive
- Add a fully functional online store with secure payments
- Improve navigation and user experience
- Introduce product categories and filters

- Optimise the website for mobile devices
-

4. Proposed Website Features and Functionality

The improved website will include:

- Homepage: Brand introduction and featured products
- About Us Page: Business story, mission, and values
- Products Page: Categorised display of beanies and scrunchies
- Product Detail Pages: Images, pricing, and descriptions
- Shopping Cart & Checkout: Secure purchasing system
- Contact Page: Customer enquiries and support

Additional Features:

- Mobile responsiveness
 - Search functionality
 - Easy navigation system
-

5. Design and User Experience

Colour Scheme:

- Primary colours: Pink and White
- Pink represents creativity, warmth, and style
- White provides a clean and modern look

Typography:

- Headings: Bold and stylish fonts
- Body text: Simple and easy-to-read fonts

Layout and Design:

- Clean and minimalistic design

- Soft aesthetic using pink highlights
- Clear navigation menu
- High-quality product images

User Experience Considerations:

- Easy navigation
 - Fast loading speed
 - Mobile-friendly interface
 - Clear call-to-action buttons (e.g., “Buy Now”)
-

6. Technical Requirements

- Domain Name: www.stitchedbyb.com
 - Hosting: Reliable and affordable hosting provider
 - Technologies Used:
 - HTML
 - CSS
 - JavaScript
-

7. Timeline and Milestones

- Week 1: Research and planning
 - Week 2: Design and wireframes
 - Week 3: Development
 - Week 4: Testing and improvements
 - Week 5: Final submission
-

8. Budget

The estimated budget for developing and maintaining the STITCHED BY B website is outlined below:

Development:

- Website design and development: ± R0 – R2,000 (self-developed or basic tools)

- Domain registration: ± R150 – R250 per year

Hosting:

- Web hosting services: ± R100 – R250 per month

Maintenance :

- Website updates and improvements: ± R100 – R300 per month
- Optional enhancements (e-commerce features, marketing): ± R200 – R1,000 per month
